

Cash King : Migrate From Older Version

v5.0 to 6.0

This guide is for you to migrate from the older **version (v5.0)** to the **latest version (v6.0)**. To avoid unexpected data loss, we recommend that you backup your files before doing this step, this step is for the **admin panel** and **application** side only.

Update Admin Panel

1. Login to your cPanel hosting, open **File Manager**.
2. Navigate to the directory where you put the php admin panel code.
3. Open/Unzip Latest **admin_panel.zip** from source code and Upload/Replace below mentioned files into your existing admin panel files.

1. inc/nav.php (Replace File)
2. api.php (Replace File)
3. index.php (Replace File)
4. users.php (Replace File)
5. v.php (Replace File)

Application Side:

- **Replace below mentioned files:**

1. app/src/main/java/com/aadevelopers/cashkingapp/csm/PlayActivity.java
2. app/src/main/java/com/aadevelopers/cashkingapp/helper/AppController.java
3. app/build.gradle
4. app/src/main/AndroidManifest.xml
5. app/src/main/java/com/aadevelopers/cashkingapp/Activity_Login.java
6. app/src/main/java/com/aadevelopers/cashkingapp/csm/fragment/Main_Fragment.java
7. app/src/main/java/com/aadevelopers/cashkingapp/helper/Constatnt.java
8. app/src/main/res/layout/fragment_main.xml

- **Delete below mentioned files from source code:**

1. app/src/main/res/layout/activity_install.xml
2. app/src/main/res/layout/activity_apps.xml
3. app/src/main/java/com/aadevelopers/cashkingapp/csm/InstallActivity.java
4. app/src/main/java/com/aadevelopers/cashkingapp/csm/AppsActivity.java
